## OBJECTIVE

Imagine an environment where everyone is passionate about what they do, agree on a common goal and are willing to work hard, learn hard and work together to achieve that goal. I want to do amazing work for people that care about what they do.

## WORK EXPERIENCE

### Senior Software Architect

09/08 - PRESENT OTHER WORLD COMPUTING, WOODSTOCK, IL

Replaced Price.com code-base without altering front end appearance / functionality (client requirement). Implemented coding & documentation standards company-wide. Managed team of 5 developers. Consulted on SEO / SEM improvements for MacSales.com. Implemented numerous internal tools to increase data accuracy & profitability.

### Senior PHP Developer

05/08 - 09/08 PRESENT LYONS CONSULTING GROUP

PHP5/MS SQL/CSS/JavaScript/AJAX Development

Rebuilt several modules of an existing custom PHP project management application and dashboard. Updated code base to move from PHP4 to PHP5. Added several client-requested upgrades to the software.

### Senior PHP Developer

09/07 - 05/08 TRUE CONSULTING, LLC

PHP/MySQL/PEAR/DHTML/CSS/JavaScript/AJAX Development

Maintained, managed and built extensive additions on an extranet software suite running over 3 million lines of code. A great deal of project planning and design documents were a major part of every upgrade process, along with extensive unit and 3rd party testing to ensure stability and efficiency.

Converted front-end website from poorly constructed mess of HTML tables, flash and over abundance of images to a clean, CSS/XHTML codebase that is Section 508 & W3C XHTML/CSS compliant without modifying the look of the website whatsoever (Client requirement).

### Independent Consultant
